Experience

UC Berkeley Coding Bootcamp, Berkeley, California

Full Stack Web Developer Tutor

June 2021 - Present

- Communicating with students about their coding challenges, and assisting them in locating and fixing the root of the problem
- Consolidating concepts taught in class and establishing myself as a resource for the student
- Building their developer mindset and toolset by showing them a professional's methods, programs and resources i've found to be useful in the workforce

Pindrop Network, Berkeley, California

Full Stack Web Developer

May 2021 - September 2021

<https://www.pindropnetwork.com/>

Skill Showcase: Full Stack Development, React, Mobile-friendly design, SCSS, Gulp, Type Checking, SVG Images

- Created a mobile-friendly landing page from wireframe to completion to gain thousands of dollars in funding from investors
- Mediated conversations between the client, the design team, and the development team to achieve weekly product development cycles
- Developed the landing page with scalability in mind with react components, SCSS, and gulp and optimized app efficiency and user experience with image optimization, Gulp, and SVG utilization
- Planned a scalable all-in-one social media platform by recommending front end and back end frameworks

E-commerce Bakery

Full Stack Web Developer

March 2021 - May 2021

<https://danielle-m-estrella.herokuapp.com/>

<https://github.com/Pting1995/business.builder>

Skill Showcase: Full Stack Development, React, Local Storage, Bootstrap, API, MySQL, Stripe Integration

- Designed and implemented a React e-commerce site with a MySQL database to store stock and orders
- Utilized Stripe.js for a fast and secure payment method
- Created a secure login for the admin with a GUI interface to enable the owner to modify items
